

Greetings Members,

After receiving my degree from SUNY Stony Brook, I worked for a few years as a Grant Writer for an Arts Council; a job where I first started to learn about contracts and budgets, and one that I really enjoyed.

After successfully scoring number one on a competitive civil service exam, I became the certified Grants Technician for the Town of Oyster Bay in the Department of Intergovernmental Affairs, the Department where I have spent my entire civil service career. In 2003 I started to work as a fiscal coordinator for the Division of Employment and Training, where I expanded my knowledge of contracts and budgets, and also the Town's accounting system. In 2012, I was promoted to the Acting Director of the Division of Community Development before becoming the Executive Vice President of CSEA Local 881. For five years, I was the Department's Equal Opportunity Officer, a position that required me to be trustworthy with confidential information, and also a good listener. In 2010, I became the Treasurer of Local 881, where I computerized the Treasurer accounting records, and was able to use my fiscal experience to bring the role of Treasurer to a higher level. Concurrently, I was the chairperson of the Bette James Scholarship Committee, a CSEA program that awards scholarships to high school/college/trade school students.

I was honored when President Jarvis T. Brown asked me to be on his slate as the Executive Vice President. I then realized just how much all the skills and knowledge I gained throughout my career would be the training ground for my new position, and enable me to be an effective and positive part of any discussion. I am excited to be a part of the new team and look forward to representing the membership.

Thank You
