

Greeting Members,

Hello, my name is Brigid Hand. I am the 2nd Vice President, as well as Chairwoman of the Local 881 Women's Committee. I am also on the Scholarship Committee, which provides our members and their dependents with the opportunity to receive financial assistance towards their education.

I have been working with the Employment and Training Division of Intergovernmental Affairs since 1992. Part of holding this position includes assisting people with disabilities. This entails assessing the needs of individuals and ensuring that the appropriate accommodations are being provided. As Workforce Coordinator, I am responsible for helping qualified unemployed individuals obtain occupational training so they can return to the workforce. This experience has enabled me to make a difference in people's lives, just as the Union has afforded me the opportunity to have a positive impact on its members. I strive to achieve excellence in leadership and representation.

I was fortunate enough to be exposed to the solidarity and camaraderie of unionism as a young age, and am proud to continue my family legacy of union activism.

Thank You
